DETAILED ACTION

Election/Restrictions

1. Newly submitted claims 35-41 are directed to an invention that is independent or distinct from the invention originally claimed for the following reasons:

2. Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 1-4, 6, 8, 10-11, 15, 17-18, 21, 23-27, 29-34, drawn to a binder strip cassette, classified in class 156, subclass 584.
- II. Claims 35-41, drawn to a method of feeding binder strips into a binding machine, classified in class 156, subclass 64.

The inventions are distinct, each from the other because of the following reasons:

Inventions II and I are related as process and apparatus for its practice. The inventions are distinct if it can be shown that either: (1) the process as claimed can be practiced by another and materially different apparatus or by hand, or (2) the apparatus as claimed can be used to practice another and materially different process. (MPEP § 806.05(e)). In this case the method can be practiced by hand or by another apparatus which does not have the details of the claimed apparatus, such as a mounting mechanism and a guide member with movable first portion.

3. Because these inventions are independent or distinct for the reasons given above and there would be a serious burden on the examiner if restriction is not required

Art Unit: 1734

because the inventions have acquired a separate status in the art in view of their different classification, restriction for examination purposes as indicated is proper.

4. Since applicant has received an action on the merits for the originally presented invention, this invention has been constructively elected by original presentation for prosecution on the merits. Accordingly, claims 35-41 are withdrawn from consideration as being directed to a non-elected invention. See 37 CFR 1.142(b) and MPEP § 821.03.

EXAMINER'S AMENDMENT

5. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

6. Authorization for this examiner's amendment was given in a telephone interview with Philip Girard on March 28, 2007.

The application has been amended as follows:

In the claims:

Claims 35-41 were cancelled.

Drawings

7. The drawings were received on February 8, 2006. These drawings are accepted by the examiner.
